Skills

Languages: Java, C++, JavaScript, Kotlin
Frameworks: React, NodeJS, Android
Tools/Platforms: MySQL, MongoDB, Git, GitHub
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

Projects

Task Management Web App (To-Do List Website) | GitHub Feb' 25 – May' 25

- Developed a full-stack task management web application with the objective of enabling users to efficiently add, update, delete, and categorize daily tasks through a responsive and user-friendly interface.
- Engineered secure authentication, session management, and end-to-end CRUD functionality using PHP, MySQL, JavaScript, HTML, and CSS, supported by a well-structured relational database schema ensuring data consistency and integrity.
- Improved user productivity and task tracking by enabling persistent storage and seamless task updates, resulting in faster task organization and a scalable system capable of handling multiple concurrent users without performance issues.

  Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

Elderly Care Nursing Chatbot | GitHub Feb' 25 – May' 25

- Developed an AI-powered virtual nursing chatbot with the objective of assisting elderly users through medicine reminders, health-care FAQs, emergency guidance, and daily wellness support via an intuitive web interface.
- Implemented conversational flow, NLP-based responses using Google Gemini API, Flask backend, MySQL data storage, and an accessible HTML/CSS/JavaScript frontend designed specifically for senior-friendly interaction and usability.
- Enhanced elderly user independence and healthcare awareness by enabling timely reminders, quick medical information access, and simplified emergency assistance resulting in increased engagement and improved daily adherence to wellness routines.

  Tech Stack: Google Gemini API, Python, HTML, CSS, MySQL

Training

C Programming Language | Certificate Jun' 25 – Jul' 25

- Completed structured training in C programming focused on core concepts including syntax, variables, control flow, functions, arrays, pointers, structures, and file handling.
- Applied modular programming principles to build a console-based Student Management System supporting add, view, search, update, and delete operations.
- Developed menu-driven applications using structures, dynamic memory access, and persistent storage through file handling.
- Strengthened logical reasoning, debugging skills, and problem-solving ability through hands-on coding practice and iterative program refinement.

Certificates

Privacy and Security in Online Social Media | NPTEL Jul' 25 – Oct' 25
Fundamentals of Network Communication | COURSERA Aug' 25 – Sep' 24
ChatGPT, Generative AI & LLM | INFOSYS Aug' 25 – Sep' 25
Responsive Web Design | FREECODECAMP Aug' 25 – Sep' 23

Achievements

Solved 150+ DSA Problems on LeetCode and GeeksForGeeks

Education

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.9 Since Aug' 23
C.M. Science College Darbhanga, Bihar
Intermediate; Percentage: 74 May' 19 – May' 21
+2 D.N. High School Darbhanga, Bihar
Matriculation; Percentage: 83 Mar' 18 – Mar' 19
